

# What you can expect from your Grounds Maintenance team

## Summer Season

Mid-March to Mid-October (Growing Season)

- Site visits every 2-3 weeks (weather dependant)
- Grass to be cut and mulched to provide valuable nutrients to the grass and soil
- Lawn edges and abutting footpaths, walls and beds to be strimmed
- Weeds to be sprayed (weather permitting) and removed during the next site visit
- Litter picking of grassed and hardstanding areas
- Shrubs and hedges pruned, additional visits for access and egress where required

## Winter Season

Mid-October to Mid-March

- 5 visits (weather dependant)
- Removal of debris from grassed, bedded and hardstanding areas
- Grassed areas to be edged
- Trimming, harsh pruning and thinning out of shrubs and hedges
- Treatment and removal of moss

## Not included:

- Removal of fly tipping
- Removal of dog fouling
- Collection of grass cuttings
- Pruning or removal of trees
- Jetwashing patio or paved areas
- Plant or turf areas
- Remove planting or shrubs
